

Church Growth Program Mission Statement

The CGP equips church leadership and congregations to build a culture in the church that is intentional, welcoming and supportive to individuals and families facing beginning and end of life issues and crises.

Life Team Mission Statement:

A team of church members on fire for pro-life issues, who commit themselves to creating awareness and building the Culture of Life in their church community.

Your role:

- Represent Halton Alive (with grace, clarity and hope!)
- Know and promote what we offer and do. Get familiar with our website.
- Promote a culture in the church community that values life and offers support
- Refrain from debating peripheral issues and using graphic images. There are other times and places for these.

Steps:

1. Pray over pro-life issues together as a team (you decide how and when).
2. Go through the training videos individually or as a team (found on the resource page).
3. Meet with the pastor and ask for his blessing and advice on how to create awareness among the church community.
4. Give the secretary a pregnancy care/pro-life resource sheet (we will supply you with this).
5. Do the church walk-through (see attachment on resource page). Set 2-3 simple, achievable goals for your church and present them to your pastor or point person.
6. Set up a Life Corner on one of the church bulletin boards and online bulletins. We provide material and samples.
7. Ask for a space on church website to easily promote HA & pro-life events.
8. Create and/or promote pro-life educational opportunities (ie: HA events).
